### Context

As part of the 4 year SENSory Atelier programme funded by Paul Hamlyn Foundation, a partnership of 9 special schools across Leicester and Leicestershire, and Attenborough Arts Centre, are working with young people, families, a network of artists and teachers, and local businesses to explore arts-based residencies, and creative learning through gallery visits and performance.

Our approach is inspired by social pedagogies including the practice of Reggio Children, Sightlines Initiative and House of Imagination. In short, we seek to develop creative learning behaviours with young people in SEND settings, to develop teacher's and artist's abilities to scaffold this work, and to facilitate meaningful sharing of learning through practical and reflective networks.

## The Schools

We are currently looking for artists to collaborate with either of the following schools:

### Nether Hall School

Nether Hall School is located on the East side of Leicester and provides education for 120 pupils aged 4-19 with a range of special educational needs including: pupils with severe, profound and complex learning difficulties.

Nether Hall pupils and staff are delighted to be involved in the SENSory Atelier programme, a perfect fit with our vision of creating a culture and environment where everyone can shine.

### Oaklands School

Oaklands is a primary school for pupils with Special Educational Needs, situated in the Evington area of Leicester. We are a mixed day school catering for 103 pupils aged from 4 to 11 years. Our pupils at Oaklands have a range of learning difficulties. Most pupils have delayed communication and language skills, and difficulties with social interaction. The majority of pupils have a diagnosis of Autism, and some have Social, Emotional, Mental Health issues and/or medical conditions, in addition to their communication difficulties.

We are open to applications from artists of all disciplines, and for the residency to be led by the interests of our pupils, but we have a particular interest in drama/movement approaches and approaches that can unlock the world of books for our learners, that activate our children's natural capacity for play, exploration, narrative understanding, and augment their reading skills.

### Birkett House

Birkett House School is a special school located in Wigston supporting 240 pupils and their families, all who have special educational needs. The Arts have always held a special place within our work and curriculum as we see this as an area where a young person, irrespective of their ability, could express themselves in a variety of different forms and as an individual.

The residency would have a focus on working with our older age pupils (14 - 19) based at our Seniors Site, which shares a campus with Leysland Countesthorpe School. These learners are working towards a WJEC Qualification in Creative Arts and although this work may complement this, we really want this opportunity to push the boundaries around a media or style that they may never have previously accessed.
